

## Let's Create a Lifetime Treasure

There are many ways to turn your photographs into a custom wooden jigsaw puzzle and we're ready to work with you to create the perfect design. Let's begin by thinking outside the box! We've designed collages using much more than photos — theater tickets, currency, wine labels, brochures, maps, invitations... we've even scanned real heather to surround a castle! What can we utilize to make your custom puzzle extra special?

Sometimes a project calls for original hand-painted artwork. We have several Stave artists ready to create an original painting just for you. Working from your suggestions, photographs and our imaginations, we'll design a scene with the elements you want and the colors and edge style that will make the perfect custom jigsaw puzzle. The possibilities are truly endless!

Now, let's get personal! It's time to select the silhouette pieces you would like crafted into the puzzle. These can be as simple as names and dates or as specific as a long-haired, teenage girl playing soccer. These are the pieces that reflect the puzzler's interests, hobbies, family, pets, favorite places, and activities and let them know this puzzle was created especially for them. Be as imaginative as you want. We can do just about anything!

Custom jigsaw puzzles soar to new heights of artistry in the hands of a Stave crafter... the possibilities are endless!

### Here's How It Works!

1. Gather your photos, cards, digital images or other special memorabilia.
2. Imagine what personal silhouettes (names, dates, special shapes) you'll want crafted into the puzzle.
3. To start the collaboration process on your special project call 802-295-5200 or email [info@stave.com](mailto:info@stave.com).
4. We'll guide you through the remaining steps to make your dream puzzle come to life.

It's that easy!

Sometimes the edge treatment we'll create is obvious before we even begin the design. With this puzzle, it was clear by the photographs just what that edge should be.

Do you think this is a photograph of someone's bulletin board? Think again! Our talented team of graphic artists digitally created the wood frame and corkboard background. Even the pins that hold the photos were digitally created! Let us forever pin your favorite photos!

No adventure would be complete without capturing every little detail of your vacation in a Stave puzzle. Whether by land, by sea, or by air, we can re-create your journey! In this Galapagos inspired puzzle we not only included photos they took from each island, we also mapped out the route of their travels. Pop-up pieces and a double-decker layer can add even more challenge and whimsy!

There are no straight edges here!

Let us take your next project to a whole new level with a highly irregular edge that will delight and excite any puzzler!

Sometimes a design calls for a clever combination of Steve original artwork and your photos.
